

Michael Hahsler

Bio:

Dr. Michael Hahsler is assistant professor of Engineering Management, Information, and Systems (EMIS), Lyle School of Engineering, Southern Methodist University (SMU). He also holds a courtesy appointment with the Department of Computer Science and Engineering, and an adjunct appointment with the Department of Clinical Sciences at UT Southwestern Medical Center. He received his Ph.D. in business informatics from the Vienna University of Economics and Business, Austria, where he worked as an assistant professor and core researcher at the Research Institute for Computational Methods. Dr. Hahsler's research focuses on methods used in the interdisciplinary field of data science including data mining, data visualization, data streams and combinatorial optimization with applications in bioinformatics, healthcare analytics, quantitative marketing, earth sciences and other engineering disciplines. He has published more than 60 papers in peer-reviewed international journals and conference proceedings and has organized several workshops. He also currently serves as editor of the Journal of Statistical Software, the secretary of the INFORMS Data Mining Section and is the principal developer of several popular data mining related extension packages for R, a free software environment for statistical computing and graphics.
